

An active front-line participant in national and international health policy and programs for more than four decades, Michael McGinnis is currently Senior Scholar at the National Academy of Medicine (NAM). He is also an elected Member of the NAM, Executive Director of the NAM Leadership Consortium on Value & Science-Driven Health Care, and founder and facilitator of its Learning Health System initiative. In a tenure unusual for political and policy posts, he held continuous appointment through the Carter, Reagan, Bush and Clinton Administrations at the Department of Health and Human Services, with policy responsibilities for disease prevention and health promotion. In this capacity, he was founder and steward of various still ongoing programs and policies, including: the *Healthy People* program of national goals and objectives, the HHS/USDA *Dietary Guidelines for Americans*, the U.S. Preventive Services Task Force, and the Ten Essential Services of Public Health. In other appointments, he served as founding director/chair of: the health program group at the Robert Wood Johnson Foundation; the World Bank/European Commission Task Force for Health Reconstruction in Bosnia; the federal Office of Research Integrity, and the HHS Nutrition Policy Board. Early in his career, he served as director of the World Health Organization's smallpox eradication program in Uttar Pradesh, India, and director of the U.S.-Eastern Europe cooperative health research program. Educated at Berkeley (AB), UCLA (MA, MD), and Harvard's Kennedy School of Government (MPP), he is perhaps most recognized for his research and publications on population health and the root causes of morbidity and mortality. Honorific recognitions include the federal Distinguished Service Medal, the 1996 National Health Leader of the Year award, and the 2013 national Public Health Hero award. Full CV follows.

J. MICHAEL MCGINNIS, MD, MA, MPP

National Academy of Medicine, the National Academies, 500 Fifth Street NW, Washington DC 20001, (202) 334-3963, mcginnis@nas.edu

Highlights: Michael McGinnis is a physician and epidemiologist who lives and works in Washington DC. Through his writing, government service, and work in philanthropy, he has been a long-time contributor to field leadership in health and medicine. Currently Senior Scholar and Executive Director of the National Academy of Medicine's (NAM) Leadership Consortium on Value & Science-Driven Health Care, he previously served as founding Director, respectively, of the Robert Wood Johnson Foundation's (RWJF) Health Group, the World Health Organization's Office for Health Reconstruction in Bosnia, the federal Office of Research Integrity (interim), and the federal Office of Disease Prevention and Health Promotion. In a tenure unusual for political and policy posts, he held continuous appointment through the Carter, Reagan, Bush and Clinton Administrations at the Department of Health and Human Services, with policy responsibilities for disease prevention and health promotion (1977-1995). Programs and policies conceived and launched at his initiative include the *Healthy People* process establishing national health goals and objectives (1979-present), the U.S. Preventive Services Task Force (1984-present), the *Dietary Guidelines for Americans* (with USDA, 1980-present), the multi-level Public Health Functions Steering Group and the *Ten Essential Services of Public Health* (1994-present), the RWJF *Active Living* family of programs (2000-present), the RWJF *Young Epidemiology Scholars Program* (2001-2012), the RWJF *Health and Society Scholars Program* (2002-present), and the current *Learning Health System* initiative of the NAM. Internationally, he served in Bosnia (1995-6) as Chair of the joint World Bank/European Commission Task Force on Reconstruction of the Health and Human Services Sector, and in India (1974-5) as epidemiologist and state Director for the World Health Organization's successful smallpox eradication program. His research has been widely cited and focuses on the multiple determinants of health, population health, and the rational allocation of social resources. He is an elected Member of the National Academy of Medicine.

Programs and policies conceived and initiated by Dr. McGinnis (with key contributions from many individuals and organizations) include several activities of importance to various arenas:

- In 2008, the IOM (now NAM) program of national innovation collaboratives, currently including the Digital Learning Collaborative (2008), the Clinical Effectiveness Research Innovation Collaborative (2010), the Value Incentives Learning Collaborative (2011), the Systems Strategies for Health Innovation Collaborative (2013), and the Care Culture & Decision-making Innovation Collaborative (2015), providing a venue for collaborative projects of common importance to stakeholder organizations;
- In 2006, the IOM Learning Health System Initiative (stewarded by the NAM Leadership Consortium on Value & Science-Driven Health Care), providing a trusted forum for key stakeholders to work together toward health and health care that continuously learns and improves (key contributors: Dr. Denis Cortese, Dr. Harvey Fineberg, Karen Ignagni, Dr. Mark McClellan, Dr. Jack Rowe, William Weldon);
- In 2002, the RWJF *Health & Society Scholars Program*, to build the field of population health by attracting promising young professionals from multiple disciplines to interdisciplinary training, research and leadership in improving the health of populations (key contributors: Dr. Pamela Russo, Dr. James Knickman);
- In 2002, publication of *The Case for More Active Policy Attention to Health Promotion*, presenting and assessing the policy, program, training, and research implications of the five domain conceptual framework for the determinants of health—genetic predisposition, social circumstances, physical environment, behavioral patterns, and medical care (with Dr. Pamela Russo and Dr. James Knickman);
- In 2001, the RWJF *Young Epidemiology Scholars Program*, a national competition to engage talented high school students—and their schools, families, and communities—in epidemiology, the basic science of public health (key contributors: Dr. Pamela Russo, Dr. David Fraser, The College Board);
- In 2000, the RWJF *Active Living* family of programs, a national initiative to foster creative building and community design to promote more physical activity in our lifestyles (key contributors: Dr. Katherine Kraft, Dr. Tracy Orleans);
- In 1996, the first bilateral agreement (Ministers of Health of the Bosnian and Serbian entities) signed outside the Dayton Accords, setting out principles and priorities for reconstruction of the health care system (key contributors: Serge Heijnen, Dr. Jo Asval);
- In 1993-1994, town hall meetings held in each of the 50 state capitals on the importance of public health in a reformed health system, leading to the development of the *10 Essential Services of Public Health* (key contributors: 50 state health commissioners, James Harrell, Dr. Edward Baker);

- In 1993, publication of *Actual Causes of Death*, a new analytic approach to identifying and quantifying the central challenges and priorities for the health of Americans (with Dr. William Foege—key contributors: Christina Wypijewski, David Stevenson);
- In 1988, the first *Surgeon General's Report on Nutrition and Health*, drawing attention to diet and overeating as influencing long-term health prospects more than any other controllable factor for non-smoking Americans (key contributors: Dr. Marion Nestle, Public Health Service Nutrition Policy Board members);
- In 1984, creation of the US Preventive Services Task Force to produce the *Guide to Clinical Preventive Services*, now in its 4th edition (1st edition in 1989), prompting a focus on evidence-based medicine (key early contributors: Dr. Robert Lawrence, Dr. Steven Woolf, Dr. Douglas Kamerow);
- In 1980, the first HHS/USDA *Dietary Guidelines for Americans*, now in its 6th edition (1st edition co-produced in 1980 with Dr. Mark Hegsted, then of USDA—key early contributors: Dr. Wayne Callaway, Carol Tucker Foreman, Dr. Donald Fredrickson);
- In 1979, the *Healthy People* process, now in its fourth decade, establishing and tracking national health goals and objectives for the decade, including decennially *Healthy People 1990* (1980) revised as *Healthy People 2000* (1990), *Healthy People 2010 and Leading Health Indicators* (2000), and *Healthy People 2020* (2010) (led by each federal Secretary of HHS and Assistant Secretary for Health—key early contributors: Dr. Julius Richmond, Dennis Tolsma, Katherine Bauer Sommers, Dr. William, Foege, Public Health Service agencies).

During his tenure in federal service, he also started the National Coordinating Committee on Worksite Health Promotion (1979-1987) to catalyze employer commitment to healthier workforces; the National Coordinating Committee on School Health (ongoing), now co-chaired by HHS, the Department of Education and USDA; and the Panel on Cost Effectiveness in Health and Medicine, which in 1995 published guidelines for the conduct of economic analyses of the returns to health investments.

Dr. McGinnis' academic service includes faculty appointments at Duke University, Princeton University, and George Washington University; publication of numerous papers on health policy, public health, preventive medicine, nutrition, and tobacco; and service on several journal editorial boards. He has testified frequently before Congress. In addition to the National Academy of Medicine, he is an elected Fellow of the American College of Epidemiology and Fellow of the American College of Preventive Medicine. His board and committee service has included: National Governors Association Commission on Childhood Obesity (co-chair), the Board of Directors of the Nemours Foundation; the National Institutes of Health State-of-the-Science Panel on the Role of Multivitamins in Chronic Disease Prevention (chair); the IOM Committee on Children's Food Marketing (chair); the United Way of the National Capital Area (chair, resource development); the NAS Board on Agriculture, Health and the Environment; the IOM Food and Nutrition Board; the IOM Roundtable on Health and the Environment; the HHS Nutrition Policy Board (chair); the HHS Working Group on Leading Health Indicators (chair); the HHS Task Force on Health Risk Assessment (chair); the National Coordinating Committee on Clinical Preventive Services (chair); and the Armed Forces Epidemiological Board.

Public service recognitions include the Distinguished Service Medal of the U.S. Public Health Service, the Surgeon General's Medallion, the Arthur S. Flemming Award, the Wilbur J. Cohen Award, the 1996 Health Leader of the Year Award, and 2013 Public Health Hero Award. He received his MD and an MA (political science/international studies) degrees concurrently from the University of California, Los Angeles, an MPP (public policy) from the Kennedy School of Government at Harvard University, and BA (political science) from the University of California, Berkeley. He was the student commencement ceremony speaker for each. Dr. McGinnis married Patricia Gwaltney McGinnis in 1978, and they have two children, Brian (1979) and Kate (1985).

EXPERIENCE

Evidence-based health and health care: Currently (2005 – Present) Senior Scholar and Executive Director of the National Academy of Medicine's Leadership Consortium on Value & Science-Driven Health Care, working with stakeholders to explore ways to strengthen the development and application of evidence for effective medical care. Chair of the Health Professionals Roundtable, Partnership for Prevention (1998-2008). Previously, Chair of the National Coordinating Committee on Clinical Preventive Services (Washington DC, 1985 to 1995), Acting Director of the Office of Research Integrity (Bethesda MD, 1992 to 1993). Contributions include:

- Establishment of the Institute of Medicine’s Roundtable on Evidence-Based Medicine (now the NAM Leadership Consortium on Value & Science-Driven Health Care);
- Establishment of national Innovation Collaboratives, a novel Academies and NAM approach to steward collaborative affinity group projects to accelerate progress in areas of field and national priority: best practices, clinical effectiveness research, digital learning, evidence communication, value incentives, and systems approaches to health;
- Creation of the U.S. Preventive Services Task Force and oversight of its development of the first comprehensive evidence-based clinical guidelines: *Guide to Clinical Preventive Services* (now in third edition);
- Creation of the Panel on Cost Effectiveness in Health and Medicine, which in 1995 developed guidelines for the conduct of economic analyses on the returns to health investments;
- Oversight of restructuring of federal activities to safeguard the integrity of federally-sponsored health research and to investigate allegations of scientific misconduct.

Philanthropy: Senior Vice President, Director of the Health Group, and Counselor to the President at the Robert Wood Johnson Foundation (Princeton, NJ, 1999 to 2005). Member, Board of Directors of the Nemours Foundation, dedicated to child health improvement. Contributions include:

- Initiation of new Foundation programs to build national capacity for population health—e.g. Health & Society Scholars Program, Young Epidemiology Scholars Program, Public Health Informatics Institute;
- Initiation of new Foundation programs to promote the health and vitality of Americans, through particular emphases on physical activity and nutrition—e.g. the Active Living family of programs, and stewardship of the Foundation’s strategic initiative on childhood obesity;
- Stewardship and oversight of Foundation programs to improve human capital for health and health care—e.g. Clinical Scholars, Minority Medical Faculty, Executive Nurse Fellows, Community Health Leaders;
- Stewardship and oversight of Foundation grants program to reduce the impact of addictive substances on the health of Americans—e.g. Campaign for Tobacco Free Kids; SmokeLess States; Partnership for Drug Free America; Center for Addiction and Substance Abuse; Join Together; Fighting Back; and Substance Abuse Policy Research Program.

National policy in disease prevention: Assistant Surgeon General, Deputy Assistant Secretary for Health, and founding Director of the Office of Disease Prevention and Health Promotion in the U.S. Department of Health and Human Services (Washington, DC, 1977 to 1995). Chair of the Policy Committee of the Partnership for Prevention (2006-2012). Contributions include:

- Initiation, design and implementation of the *Healthy People* process to establish and implement national health goals and objectives (now in third decade);
- Chaired town meetings during 1993-4 in all 50 states, co-chaired by the respective State Health Commissioners, to raise attention to the importance of public health as part of health care reform; primary tangible result: development of the *10 Essential Services of Public Health* (Public Health Functions Steering Committee);
- Chaired working group that developed approach and options for the first set of national Leading Health Indicators.
- Chair of the first national committee on prevention priorities, developing the analytic approach to rank services based the evidence of their effectiveness, impact, and value.
- Creation of National Coordinating Committee on School Health (ongoing), co-chaired initially by HHS and the Department of Education, and now also USDA; and National Coordinating Committee on Worksite Health Promotion (1979-1987), intended to foster awareness and expansion by corporations of worksite wellness programs.

Nutrition policy: Chair of the Nutrition Policy Board at the U.S. Department of Health and Human Services (Washington DC, 1978 to 1995). Contributions include:

- Initiation and development (with USDA) of the first HHS/USDA *Dietary Guidelines for Americans* (now in fifth edition);
- Initiation and oversight of the development of the first *Surgeon General’s Report on Nutrition and Health* (1988).

- Chair of the Institute of Medicine Committee on *Food Marketing to Children and Youth* (report issued in December 2005).
- Chair of the National Institutes of Health State-of-the-Science Panel on Multivitamins and Multiminerals in Chronic Disease Prevention (report issued May 2006).

Tobacco control: Chair of the Secretary's Task Force on Smoking and Health (Washington DC, 1977 to 1979). Visiting expert for the Latin American Program on Smoking and Health (1982 to 1989). Contributions include:

- Creation of a platform for revitalized national leadership on tobacco control, including raising the profile for annual *Surgeon General's Reports* and elevating the Office on Smoking or Health;
- Conduct over an 8-year period, with colleagues from the U.S. and Latin America, of national tobacco control workshops in each Latin American country.
- Steward and overseer of the contributions of the Robert Wood Johnson Foundation to tobacco control, 1999-2005.

International health: Chair of the World Bank/European Commission Sectoral Task Force on Health and Human Services, and Senior Policy Advisor to the World Health Organization (Bosnia and Herzegovina, 1995 to 1996). State Coordinator and field epidemiologist for World Health Organization Smallpox Eradication Program in India (Uttar Pradesh, 1974 to 1975). Participation in various international panels and activities. Contributions include:

- Oversight of completion of smallpox eradication in India's largest state, Uttar Pradesh, including development and initial implementation of surveillance system for post-eradication monitoring.
- Formation and implementation of the task force to coordinate donor activities on post-war reconstruction of health facilities and services destroyed in Bosnia and Herzegovina;
- Negotiation of the first bilateral agreement outside the Dayton Accords, on health reconstruction priorities, between the Ministers of Health of the Serbian and Federation (Croat and Muslim) entities.

Population health field-building: Ongoing career work and interest. Relevant appointments as Scholar-in-Residence at the National Academy of Sciences (Washington DC, 1995 to 1999), Senior Scholar at the Association of Academic Health Centers (Washington DC, 1997 to 1999), various faculty appointments (1973 to present). Contributions include:

- Chair of the national advisory board for the International Society for Population Health Science;
- Development of conceptual framework for engaging prevention priorities (*Healthy People*);
- Co-chair, with each state health commissioner, of town hall meetings during 1994 in all 50 state capitals on the importance of public health in health reform, leading to the *Ten Essential Services of Public Health*.
- Formulation of new perspective on key health priorities for Americans (*Actual Causes of Death*);
- Creation of programs to build the long-term capacity of the field (*Health & Society Scholars, Young Epidemiology Scholars*).

EDUCATION AND PROFESSIONAL TRAINING

USPHS/Harvard University, Residency (Preventive Medicine, 1972-1977)

Harvard University, M.P.P. (Public Policy, 1977)

Boston City Hospital, Internship (Internal Medicine, 1971-1972)

University of California at Los Angeles, M.D. (Medicine, 1971)

University of California at Los Angeles, M.A. (Political Science, 1971)

University of California at Berkeley, B.A. (Political Science, 1966)

ACADEMIC APPOINTMENTS

Duke University, Visiting Professor of Public Policy Studies, 1999-2002

Princeton University, Visiting Lecturer in Public and International Affairs, 1996-1998

University of California at Los Angeles, Regents' Lecturer, 1997

Duke University, Adjunct Professor of Public Policy, 1979-1981

George Washington University, Instructor in Medicine, 1973-1975

MEDICAL LICENSURE AND CERTIFICATION

American Board of Preventive Medicine (GPM), 1982
District of Columbia (inactive), 1973
Massachusetts (inactive), 1972
California (inactive), 1972

PROFESSIONAL SOCIETIES AND ORGANIZATIONS

American Association for the Advancement of Science
American College of Epidemiology (Fellow)
American College of Preventive Medicine (Fellow)
American Medical Association
American Public Health Association
Society for Behavioral Medicine

RECOGNITIONS

Commencement and other prominent lectureships:

Woodward Lecture, U.S. Navy, 2007
Katherine Boucot Sturgis Lecture, American College of Preventive Medicine, 2007
Texas A&M School of Rural Public Health, commencement, 2005
University of Miami Miller School of Medicine, commencement, 2005
John P. McGovern Award Lectureship in Health Science, Ball State University, 2005
St. Louis University School of Public Health, commencement, 2004
Flemming Lecture, National Association of State Units on Aging, Washington, DC, 1999
Ebert Health of the Future Lecture, Kansas Health Foundation, Wichita, Kansas, 1999
Ogden Lecture, Society of Public Health Education/ASTDHPPHE, 1998
Royal College Lecturer, Royal College of Physicians and Surgeons of Canada, 1997
Regents Lecturer, University of California, Los Angeles, 1997
French Lecture, University of Illinois at Chicago, 1996
University of Missouri, Allied Health Professionals, commencement, 1993
Long Lecture, National Association of Secondary School Principals, 1992
McGovern Lecture, American School Health Association, 1990
James Lecture, North Carolina State University, 1989
Breslow Lecture, University of California, Los Angeles, 1988
Delta Omega Lecture, Johns Hopkins University, 1988
Hunter Lecture, University of Utah, 1987
Lamb Lecture, East Tennessee State University, 1986
Switzer Lecture, Society of Allied Health Professionals, 1985
Foard Lecture, University of North Carolina, 1985

Other recognitions:

Public Health Hero Award, School of Public Health, University of California at Berkeley, 2013
Excellence in Achievement Award, Alumni Association, University of California at Berkeley, 2013
Foundation Luminary, Robert Wood Johnson Foundation, 2012
Award for Excellence in Health Promotion, Yale University, 2004
National Academy of Sciences, Institute of Medicine (elected Member), 2000
Award for Excellence, Association of State and Territorial Health Officials, 1997
National Health Leader of the Year Award, U.S. Public Health Service COA, 1996
Special Recognition Award, Association of Teachers of Preventive Medicine, 1996
Award for Excellence, American Public Health Association, 1995
Health Promotion and Education Advocacy Award, CDC and ASTDHPPHE, 1995
Wilbur J. Cohen Award, U.S. Public Health Service, 1995

Surgeon General's Medallion, U.S. Public Health Service, 1995
 Honorary Member Award, American Dietetic Association, 1994
 Eta Sigma Gamma National Honor Award, 1993
 Special Humanitarian Award, Latin American Committee on Smoking Control, 1990
 Profile in Excellence Award, U.S. Office of Personnel Management, 1989
 Distinguished Service Award, U.S. Public Health Service, 1989
 Porter Prize, for leadership in health promotion, 1989
 Surgeon General's Exemplary Service Award, 1989
 Special Recognition Award, American College of Preventive Medicine, 1989
 U.S. - Japan Leadership Fellow, Japan Society, 1988
 Honorary Fellow Award, Society for Public Health Education, 1987
 Distinguished Service Award, Association for Advancement of Health Education, 1984
 Meritorious Service Award, U.S. Public Health Service, 1980
 Arthur S. Flemming Award for Outstanding Public Service, 1979
 Graduation speaker (chosen by dean/students), Kennedy School of Government, Harvard University, 1977
 Special Appreciation Award (Smallpox Eradication), Government of India, 1975
 Graduation speaker (chosen by students), Medical School, University of California at Los Angeles, 1971
 Graduation speaker (chosen by faculty), University of California at Berkeley, 1966

NATIONAL BOARD AND COMMITTEE WORK

National Governors Association, Committee on Childhood Obesity (Co-Chair), 2008-2010
 Partnership for Prevention, Board of Directors (Chair, Policy Committee), 2007-present
 Friends of the National Library of Medicine, Board of Directors, 2006-present
 Nemours Foundation, Board of Directors, 2006-present
 Partnership for Prevention, Health Professionals Roundtable on Preventive Services (Chair), 2004-present
 NIH State of the Science Panel on Multivitamins in Chronic Disease Prevention (Chair), 2004-2006
 National Academies, IOM Committee on Children's Food Marketing (Chair), 2004-2005
 National Academies, IOM Committee on National Cord Blood Stem Cell Banking, 2004-2005
 Food and Drug Administration, Food Advisory Committee, Subcommittee on Nutrition, 2003-2006
 United Way of the National Capital Area, Board of Trustees (Chair, Resource Development), 2003-2007
 National Academy of Sciences, Roundtable on Environmental Health Sciences, 2002-2005
 National Academy of Sciences, Board on Agricultural Biotechnology/Health/Environment, 2000-2002
 American Cancer Society, Advisory Committee to the Chief Executive Officer, 1998-2002
 Committee on Clinical Preventive Service Priorities (Chair), 1997-2000
 Committee for Changing Health-Related Behavior in Managed Care (Chair), 1997-1999
 NHANES Scientific Review Panel, 1997-1998
 HHS Work Group on Sentinel Objectives for *Healthy People 2010* (Chair), 1996-7
 Partnership for Prevention, Board of Directors, 1996-1999
 Adventist HealthCare Prevention and Wellness Advisory Council (Chair), 1996-1999
 The Health Project, Board of Directors, 1995-1999
 Healthtrac Foundation, National Advisory Board on Prize for Improving Health, 1992-present
 Armed Forces Epidemiological Board, 1996-1997
 The Colorado Trust, National Advisory Board, 1992-1997
 U.S. Department of Health and Human Services, Nutrition Policy Board (Chair), 1978-1995
 National Coordinating Committee on Clinical Preventive Services (Chair), 1989-1995
 National Health Management Foundation Award, National Advisory Board, 1992-1994
 The Barker Foundation, Board of Trustees, 1989-1992
 The Wesley Foundation, National Advisory Board, 1990-1991
 National Academy of Sciences, Charles A. Dana Awards Board, 1989-1991
 Henry J. Kaiser Family Foundation, National Advisory Board, 1986-1990
 U.S. Public Health Service, Acquired Immunodeficiency Syndrome Executive Task Force, 1985-1989
 National Academy of Sciences, Food and Nutrition Board (FNB), 1984-1989
 American Cancer Society, Coordinating Committee on Tobacco-Related Research, 1983-1988
 Secretary's Task Force on the Health of Blacks and Other Minorities (HHS), 1984-1986

National Academy of Sciences, FNB Committee on Nutrition in Medical Education, 1984-1986
U.S. Department of Health and Human Services, Task Force on Health Risk Assessment (Chair), 1982-1985
American Red Cross, Trilateral Committee on High Blood Pressure Control in Black Populations, 1982-1985
American Red Cross, Advisory Committee on Health Services, 1979-1984
Harvard University, Alumni Executive Council, Kennedy School of Government, 1979-1981
Departmental Task Force (HHS) on Sexually Transmitted Diseases (Chair), 1978-1979
Secretary's Task Force (HEW) on Smoking and Health (Chair), 1977-1979
Secretary's Task Force (HEW) on Disease Prevention and Health Promotion (Chair), 1977-1979

INTERNATIONAL BOARD AND COMMITTEE WORK

World Health Organization, European Regional Office, Regional Health Development Advisory Council, 1997
World Bank/European Commission/International Management Organization Sectoral Task Force on Health and the Social Safety Net (Chair), Sarajevo, Bosnia and Herzegovina, 1996
World Health Organization, European Regional Office, Expert Advisor, European Health Policy Conference, Denmark, 1994
World Health Organization, European Regional Office, Expert Advisor, Health for All Strategies, Denmark, 1990
World Health Organization, European Regional Office, Expert Advisor, Project on Health Status Indicators, Denmark, 1989
International Union Against Cancer (UICC), Latin American Program on Smoking and Health, Dominican Republic, Guatemala, 1989
Japan Society Fellow, United States-Japan Leadership Program, 1988-1989
World Health Organization, European Regional Office, Expert Advisor, Project on Chronic Disease Control, Denmark, 1987
World Health Organization, WHO Expert Advisory Committee on Occupational Health, Switzerland, 1987-2001
World Health Organization, Expert Advisor, Project on Occupational Health, 1986
International Union Against Cancer (UICC), Latin American Program on Smoking and Health, Costa Rica, 1986
World Health Assembly, United States Delegation, Technical Discussion Leader, 1985
International Union Against Cancer (UICC), Latin American Program on Smoking and Health, Argentina, Panama, Paraguay, 1984
National Academy of Sciences, Food and Nutrition Board, Planning Committee for World Food and Nutrition Study, 1984
International Union Against Cancer (UICC), Latin American Program on Smoking and Health, Bolivia, Columbia, Mexico, 1983
International Union Against Cancer (UICC), Latin American Program on Smoking and Health, Brazil, Chile, Peru, 1982
World Health Organization, Smallpox Eradication Program, Field Epidemiologist and State Coordinator, India, 1974-1975
