

IOM ROUNDTABLE ON VALUE & SCIENCE-DRIVEN HEALTH CARE

❖
DIGITAL LEARNING COLLABORATIVE
❖

APRIL 16, 2013
NATIONAL ACADEMY OF SCIENCES BUILDING
2101 CONSTITUTION AVENUE, NW
WASHINGTON, DC

Meeting goals

1. The Digital Learning Collaborative will identify, highlight, and advance solutions to key challenges in the advancement of science and value-driven health by leveraging expertise in health information technology.
2. To drive increased adoption of digital learning technologies, a working session of DLC groups undertaking quantification of return on investment, and outlining conceptual and practical components of data-driven medicine will be held.
3. Given the key challenges of increasing information complexity, and minimal patient engagement facing clinical information technology in health care, this meeting will highlight solutions including modular platforms, opportunities for patient contribution to health records, and approaches to information integration.
4. Consider updates on efforts of shared priority underway by other organizations and consortia.

9:00 am **Coffee and light breakfast available**

9:30 am	Welcome, introductions, and meeting overview
---------	---

Welcome from the IOM
Michael McGinnis, Institute of Medicine

Opening remarks and meeting overview by Collaborative Chairs
Jonathan Perlin, HCA Inc.
Reed Tuckson, Tuckson Health Connections, LLC

9:45 am	EHRs: Solving key problems
---------	-----------------------------------

Integrating multiple data streams to guide care
Dawn Milliner, Mayo Clinic

Engaging patients in their information through Open Notes
Tom Delbanco, Beth Israel Deaconess Medical Center

Driving knowledge generation

James Tchong, Duke University

Q&A and Open Discussion

11:15 am	Working sessions and Lunch
----------	-----------------------------------

Meeting participants will break out into 3 simultaneous groups:

1. **Data-driven medicine workgroup-** this group will continue their discussion of the paper outline and begin flushing out individual sections.
2. **Return on Information workgroup-** this group will review the progress of the paper writing and model development subgroups and discuss dissemination strategies.
3. **DLC priorities-** this group will discuss compelling issues in health IT for potential DCL engagement.

Q&A and Open Discussion

1:15 pm	Work group progress, input, and discussion
---------	---

Representatives from each work group will report back to the whole group and invite input and discussion on next steps.

Leveraging analytics for continuous improvement in health and health care

Return on Information: Discussion paper and financial model

DLC priorities

Q&A and Open Discussion

2:45 pm	Updates and next steps
---------	-------------------------------

This session will include informal updates from DLC participants involved in other digital learning-focused initiatives and include a discussion of potential next steps for the DLC.

3:45 pm	Summary and next steps
---------	-------------------------------

Comments from the Chairs

Comments and thanks from the IOM

4:00 pm **Adjourn**
