

Leadership Consortium for a Value & Science-Driven Health System

CARE CULTURE AND DECISION-MAKING INNOVATION COLLABORATIVE

In coordination with the Roundtable on Population Health Improvement & the Culture of Health Program

MAY 17, 2018

NATIONAL ACADEMY OF SCIENCES BUILDING

LECTURE ROOM

2101 CONSTITUTION AVENUE, NW

WASHINGTON, DC 20418

Meeting focus: Community health needs assessments as a means to activate communities in co-creating agendas to promote health and well-being.

Motivating questions:

- 1. Purposes: What are the ways in which community health needs assessments activate communities to actively address health issues, and promote population health and well-being?
2. Practices: What are promising examples of communities demonstrating effective and meaningful partnerships to co-create actionable health needs assessments and follow-up on priority issues?
3. Results: What measurable policy, program, or health outcomes have been catalyzed by CHNA processes?
4. Improvements: What policies, tools, information, or incentives might best enhance the spread and results of CHNAs?

Outcomes anticipated: Shared understanding of the steps necessary to better capture and disseminate best principles and practices for community health needs assessment, and how might the NAM be helpful?

8:30 am Coffee and light breakfast available

9:00 am Welcome, introductions, and meeting overview

Welcome

Michael McGinnis, National Academy of Medicine
Alina Baciu, Roundtable on Population Health Improvement
Charlee Alexander, Culture of Health Program
