# BUILDING BETTER OUTCOMES

Health is not balanced in Atlanta. Many neighborhoods do not have the resources they need to live active, healthy lives. Not all Atlantans have access to healthcare. **Historic inequities** hold back too many individuals and families.

**How will ARCHI drive health systems transformation?** By committing to a 28 year plan that comprehensively addresses health and health equity, far beyond healthcare.

**What does health for all look like?** Expanding insurance and economic opportunity, promoting healthy lifestyles and efficient healthcare provision will improve health status and increase the region's economic vitality.

## INNOVATION FUNDING

Diverse investments support the development of new models of care and new alignments between clinical and non-clinical services.

## CAPTURE & REINVEST

Payers calculate healthcare cost savings from interventions and invest a percentage into community health.

## GLOBAL PAYMENTS

Healthcare dollars incentivize care that keeps people healthy, not just treating them when they are sick.

### FAMILY PATHWAYS

Improve economic prospects for families and students including education, job training affordable housing and transportation.

### CARE COORDINATION

Providers share information across systems to reduce duplication. Supportive services help individuals and families navigate clinical and community services.

### EXPAND INSURANCE

Bolster rates of health insurance coverage.

### HEALTHY LIFESTYLES

- Reduce smoking and tobacco use
- Improve diet and nutrition
- Increase exercise and physical fitness
- Reduce drug and alcohol use
- Reduce unprotected sex and STI transmission
- Increase preventative care efforts for physical and mental health

## IN 2040 WE WILL SEE

**+7%** in worker productivity

**+16%** in access to preventative & chronic care

**-45%** in non-urgent ER visits

**-13%** in healthcare costs

**-13%** in hospital readmissions
