ACTION COLLABORATIVE GOALS

- Raise visibility of clinician burnout, depression, moral injury, and suicide
- Improve understanding of challenges to clinician well-being
- Advance evidence-based, multidisciplinary solutions that will improve patient care by caring for the caregiver

ACADEMY
of MEDICINE

MEETING OBJECTIVES

- Present the findings, conclusions, and recommendations from the consensus report, *Taking Action Against Clinician Burnout: A Systems Approach to Professional Well-Being*
- Discuss the conceptual framework and foundational principles underlying the report goals, findings and recommendations
- Gain an understanding of how the report goals and recommendations apply to participating organizations and stakeholder groups, and learn about specific actions across the system to reduce burnout and foster professional well-being.
- Identify the actions that stakeholders and the Clinician Well-Being Collaborative can take to advance the consensus report recommendations
- Make commitments to carry forward the consensus report recommendations
