NAM Grand Challenge: Creating a Global Roadmap for Healthy Longevity

Victor J Dzau, MD
President, US National Academy of Medicine

June 15, 2021
• Comprehensive assessment of the challenges and opportunities presented by global aging, as well as the promising solutions and necessary directions for improving, health, productivity, and quality of life

• Catalyze breakthrough ideas and research that will extend the healthspan

• Achieve transformative and scalable innovation in healthy aging and longevity

• Build a broad ecosystem of support.
Global Roadmap for Healthy Longevity
