## **Orienting AI Toward Health Workforce Well-Being: Examining Risks and Opportunities**

**Monday, December 9, 2024**  
**11:00 AM – 4:30 PM Pacific Time**

**Scripps Seaside Forum**  
8610 Kennel Way, La Jolla, CA 92037

### **Meeting Objectives:**

Artificial Intelligence (AI) is the hot topic in health care for its potential to both alleviate and exacerbate the challenges faced by health workers, particularly for clinician burnout and well-being. To anticipate how to navigate this rapidly evolving field, this hybrid meeting will:

1. Present available research on the impacts of artificial intelligence (AI) on health worker well-being.
2. Explore use cases where applications of AI have demonstrated clear or promising benefits for health worker well-being.
3. Discuss how stakeholders can navigate and prevent digital transformation pitfalls in the current and future health care environment.
